

the range

The **Street Smartz range includes deluxe adult and youth protector bibs** made from high quality fleece and towel with soft waterproof backing. They have been designed to be both comfortable and practical to wear at meal times or anytime at all. They are ideal for use in both the aged care and disability areas.

We have two sizes available – Adult and Youth, with triple press stud closures to make them easy to put on and fit most neck sizes. The Adult protector also has a double press stud closure on the sides to form a handy crumb catching pocket, or it can be left down to cover the top of the legs.

Machine washable and tumble dry safe, the fleece and towel stays soft and bright, wash after wash. These protector bibs are available a variety of colours – look inside for the full range.

New to the Street Smartz range are the Mattress Protector Waterproof Pad and Chair Waterproof Pad. Absorbent and comfortable these waterproof pads will keep beds and chairs dry and stain free. Mattress Protectors are available in Single, Double and Queen sizes.

a practical, functional &
dignified solution
to protect skin & clothing

about

This range has been developed to fill a need identified in the aged care, special needs and disability areas. Street Smartz is designed to be a practical, functional and dignified solution to protect skin, clothing and furniture from food, drinks and other spills.
